Berry Hill Park

HISTORY

Berry Hill Park has a rich history. The landscape was first designed to complement Berry Hill Hall but in the 20th century, the site became strongly associated with the Miners Welfare Association. Mansfield Harriers has also been based at Berry Hill since the 1950's. The park design will record, celebrate and explain all of these different strands of history.

BUILDING AND EVENTS SPACE

These examples show how a new building could provide a café with an external terrace, toilets and a community space; the new park will be a better place for events with grass terraces facing the bandstand.

PLAY AND PUBLIC ART

More examples from other areas show how the park could have an exciting new play area; we'll work with local artists and makers to create a public art trail.
