Rapid Health Impact Assessment

Mansfield District Council Local Plan Publication Draft 2013-2033

September 2018

Overview

A Rapid Health Impact Assessment (HIA) has been conducted using the Nottinghamshire Rapid Health Impact Assessment Matrix. This tool was developed in collaboration with local planners, and was based on the tool developed by the London Healthy Urban Development Unit¹.

There are recommendations in relation 5 HIA domains.

General Recommendation

The Publication Draft sets out a positive vision in line with the Nottinghamshire Health & Wellbeing Strategy ambition for healthy and sustainable communities includes health inequalities as part of the vision statement objectives.

Specific Recommendation – Housing Quality and Design

It is recommended that there is a policy or policy objective on accessible housing including the proportion of new homes required under category 2 and category 3 of the national technical access standards for housing published in March 2015.

Specific Recommendation – Access to healthcare services and other social infrastructure

It is recommended to ensure the updated the Mansfield Infrastructure Delivery Plan includes up-to-date information on local NHS and social care infrastructure plans. Using space – potential multi-use of space If shared community use and co-location of services is a Development Consideration. Please consider One Public Estate -

Specific Recommendation – Access to open space and nature

Accessibility is referred to in sections IN2 IN3, IN4 and IN5

However there is no explicit references besides Mansfield Green Space Standard which does not fully explain how it the links to accessibility for people with disabilities. Therefore an explanation of the standard should be included.

Specific Recommendation – Air quality, noise and neighbourhood amenity

It is recommended that policy E5 should state that developments should not contribute to poor air quality. It is recommended that Planners use of the recently finalised East Midlands Air Quality and Emissions Mitigation Guidance for Developers (July 2018).

Specific Recommendation – Social cohesion and lifetime neighbourhoods

It is recommended that the Lifetime Neighbourhood guidance is utilised in relation to policies P1-P4 so that specific statements can be added regarding how design can positively benefit older people. This is taking into account the aging population identified in the Plan.
