Key:

| Viability Indicationn - General Overview | Land value filter levels and notes - Indications: A guide to the results |
|---|--|
| Poor | RLV <£250,000/ha – Probable poor viability outcomes with limited / reduced scope for planning obligations. Workable schemes most relevant to greenfield sites. |
| Marginal | RLV £250,000 – 350,000/ha – Marginal / improving viability prospects – Improving scope for planning obligations, subject to site-specifics. Most relevant to greenfield. |
| Viable in most likely LP circumstances | RLV £350,000 - £500,000/ha – Land value >£350,000 indicative of viable outcomes in most Mansfield Local Plan relevant scenarios. |
| Further improving viability | RLV £500,000/ha – 750,000/ha – Greater confidence in viability across a wider range of site types. Increased scope for planning obligations. |
| Strongest viability outcomes | RLV > £750,000/ha – As above – further increased confidence in viability across wider range of sites in local context. |
