		any subsequent secondary legislation made under these sections.	Affordable housing for rent: meets all of the following conditions:	
			a. the rent is set in accordance with the Government's rent policy for Social Rent or Affordable Rent, or is at least 20% below local market rents (including service charges where applicable);	
			b. the landlord is a registered provider, except where it is included as part of a Build to Rent scheme (in which case the landlord need not be a registered provider); and	
			<u>c. it includes provisions to remain</u> <u>at an affordable price for future</u> <u>eligible households, or for the</u> <u>subsidy to be recycled for</u> <u>alternative affordable housing</u> <u>provision.</u>	
			For Build to Rent schemes, affordable housing for rent (i.e. Affordable Private Rent) is expected to be the normal form of affordable housing provision.

			<b>Starter homes:</b> is housing as defined in Sections 2 and 3 of the Housing and Planning Act 2016 and any subsequent secondary legislation made under these sections.	
			Discounted market sales housing: is that sold at a discount of at least 20% below local market value. Eligibility is determined with regard to local incomes and local house prices. Provisions should be in place to ensure housing remains at a discount for future eligible households.	
			Other affordable routes to home ownership: is housing provided for sale that provides a route to ownership for those who could not achieve home ownership through the market. It includes shared ownership, relevant equity loans, other low cost homes for sale (at a price equivalent to at least 20% below local market value) and rent to buy (which

MM84	Chapter 10 Paragraph <del>10.6</del> - <b>10.7</b>	The Mansfield District Council Landscape Character Addendum (2015) identifies a number of locally specific landscape policy zones (LPZs). Each zone has a strategic policy action based on an assessment of landscape sensitivity and landscape condition, identifying which areas are more locally sensitive than others to change. A map of LPZs is provided at Figure 10.1.	In addressing criteria within NE1(2), the criteria listed in NE1(2) will be applied having regard to the scale and type of development proposed. The Mansfield District Council Landscape Character Addendum (2015) identifies a number of locally specific landscape policy zones (LPZs) to support policy implementation. Each zone has a strategic policy action based on an assessment of landscape sensitivity and landscape condition, identifying which areas are more locally sensitive than others to change. Additionally, LPZ descriptions, characteristic visual features, landscape analysis and detailed landscape actions help inform further site-based assessment work and planning decisions. A map of LPZs is provided at Figure 10.1.	Discussion at hearing session (Main Matter 3)

## Appendix 2 – Table A3.1 Objective and policy links (Modification MM96)

Objective	Policies which address this objective	Related strategic priorities
Objective 1		
Support economic growth and prosperity - by promoting the regeneration of previously developed land and existing buildings, as well as identifying other sustainable areas, for job growth, services and new homes. In doing so, direct most development to the Mansfield urban area, including Mansfield Woodhouse, Forest Town and Rainworth, followed by Market Warsop, whilst seeking to mitigate against any significant adverse social, environmental and infrastructure impacts of development.	S1, S2, S3, S4, S5, P4, H1, H2, H7, E1, E2, E3, E4, RT1, RT2, RT3, RT6, RT7, RT11, SUE1, SUE2, SUE3, HE2, IM1.	SP1, SP3, SP7, SP11
Objective 2		
Contribute to creating a stronger, more resilient local economy - by bringing forward a diverse range of employment sites to reflect the changing economy and ensuring that residential areas are accessible to employment, education and training opportunities.	S1, S2, S3, S4, S5, P4, H6, E1, E2, E3, E4, E5, SUE1, SUE2, SUE3, HE2, IM1.	SP3
Objective 3		
Increase the range and choice of housing throughout the urban areas and villages - to better meet the needs of the whole community, through the provision of more diverse market, affordable, and specialist housing so creating inclusive, mixed neighbourhoods.	S1, S2, S3, H1, H2, H3, H4, H5, H6, H7, H8, SUE1, SUE2, SUE3, IM1.	SP1, SP2
Objective 4		
Conserve and enhance the identity, character and diversity of the district's historic and cultural heritage assets and their settings.	S1, S2, S3, P1, P2, P8, RT4, HE1, HE2, IM1.	SP9, SP15
Objective 5		
Ensure that all new development achieves a high standard of design and amenity - which reflects local context, circumstances and opportunities to create healthy, safe and attractive neighbourhoods.	S1, S2, P1, P2, P3, P4, P5, P6, P7, <del>P8,</del> H3, H5, H7, RT4, RT10, IM1.	SP15
Objective 6		
Safeguard and enhance the vitality and viability of the district's town, district and local centres – particularly through regeneration opportunities, in ways that help meet the consumers' needs. Attracting new and varied uses to bring increased activity, footfall and vibrancy into these locations, with a focus on cultural, residential and leisure activities to complement the retail and service role of these centres.	<b>S1, S2, S3, S4, S5,</b> <b>P1, P2,</b> RT1, RT2, RT3, RT4, RT5, RT6, RT7, RT8, RT9, <del>RT10,</del> <b>RT11,</b> <b>IM1.</b>	SP4
Objective 7		
Improve the health and wellbeing of the district's population and reduce health inequalities - by ensuring residents and visitors have better opportunities to take exercise through convenient access to a range of good quality green space, green corridors, trails, leisure and community facilities and the countryside through appropriately designed places and well planned green infrastructure.	<b>S1, S2, S3, P1, P2,</b> <b>P3, P5, P7, H3,</b> <b>RT9, RT10,</b> IN2, IN3, IN4, IN5, IN6, IN7, IM1.	SP8, SP12, SP13, SP15
Objective 8		
Ensure new development minimises, and is resilient to, the adverse impacts of climate change - by adopting measures to appropriately address renewable and low carbon energy generation, flood mitigation, green infrastructure, resource and waste management.	<b>S1, S2, P1, P2, P5,</b> <b>IN1, NE2,</b> CC1, CC2, CC3, CC4, <b>IM1.</b>	SP7
Objective 9		
Reduce the need to travel and support improvements to transport accessibility - so that people can move around, across and beyond the district easily and sustainably, including by public transport, walking and cycling. Locating new development taking account of those areas of the highway network that are identified as being very congested with little capacity for expansion and managing impacts on air quality. Providing parking for vehicles to meet appropriate local needs and avoiding impacts on local highway safety.	S1, S2, S3, P1, P2, P3, P4, P5, RT5, IN1, IN2, IN8, IN9, IN10, IM1.	SP5

Objective	Policies which address this objective	Related strategic priorities
Objective 10		
Deliver the infrastructure requirements of the districts future population – including access to high speed broadband.	S1, S2, P5, IN1, IN2, IN3, IN4, IN5, IN7, IN8, IN9, IN10, IN11, IM1.	SP6, SP8, SP13, SP14, SP15
Objective 11		
Protect the vitality, identity and setting of the villages - by safeguarding important areas of open land and enabling access to key community facilities and services.	S1, S2, S3, RT9, IN2, IN5, IN7, NE1, IM1.	SP11
Objective 12		
Protect, enhance, restore and maintain important natural resources, in and adjoining the district - including wildlife, soil, air quality and geological resources, and the network of habitats and designated sites.	S1, S2, IN2, NE2, NE3, NE4, IM1.	SP12, SP14, SP10
Objective 13		
Encourage new development to be water sensitive by addressing water efficiency, protecting and enhancing the natural environment and reducing flood risk and pollution, whilst at the same time ensuring the effective design and location of sustainable urban drainage systems (SuDS) and naturalising the river environment to create a more attractive healthy environment for residents.	<b>S1, S2, <del>CC1,</del> CC2,</b> CC3, CC4, <b>IM1.</b>	SP6
Objective 14		
Conserve and enhance the quality of the district's landscape character and key landscape features - by positively addressing National Character Area profiles and landscape policy actions within the Sherwood and Magnesian Limestone landscape areas through the design and location of new developments.	S1, S2, S3, NE1, IM1.	SP11

## Appendix 3 – Table A5.1 Housing trajectory (Modification MM97)

Appendix 4 – Supporting Text After (*Figure A8.1 Pleasley Hill Farm master plan*) (Modification MM98)

The development of the Pleasley site will include commercial uses on land that will be located across both sides of the Mansfield and Ashfield Regeneration Route (MARR). The Council expects these commercial areas to be designed to a high standard and as part of demonstrating the quality and robustness of design proposals, applicants will need to demonstrate that a series of options have been thoroughly explored.

Three key design principles will guide design proposals:

- Human scale;
- Ease of pedestrian and cycle movement, including across the MARR; and
- Creating a local connection.

A strong emphasis will be placed on creating an environment that is of a human scale where the need for vehicular access does not compromise those on foot and those on a bicycle. This will include a strong movement strategy for enabling people to cross the MARR easily, directly and comfortably. The character of the MARR will need to change as it passed through the allocated site area; calming vehicle speeds and creating a more human scale environment. Options may include the use of tree planting, the use of different surface materials and street furniture (such as more modestly scaled lighting columns), carriageway narrowing, in line parking (which in turn will support the vitality of the commercial facilities) and gateway features. Applicants will be expected to work closely with the Council and the Highways Authority to explore options which will be informed by appropriate precedents.

Particular attention must be afforded to the accessibility of these commercial uses, in particular access by foot and by bicycle from adjacent residential areas. To ensure a high degree of accessibility on foot and by bicycle the connections between residential development and the commercial areas will require careful consideration to ensure that routes are direct, convenient, generous, attractive, well-lit and overlooked; thereby guarding against isolated, non-direct and unpleasant routes that pass to the rear of buildings and associated service areas. The arrangement of commercial buildings and plots must not compromise the need to create a permeable block structure that allows direct connections to be made. In addition, the design of the commercial area must ensure that those arriving by bike are afforded secure and overlooked parking facilities that are located as close to the entrance as car parking spaces.

A strong, Forest inspired landscape strategy will create a local connection. Where appropriate, this will sensitively and creatively integrate the surface water management strategy.

Policy	Objective	Indicator	Target	Trigger	Possible Remedial Actions
S1: Presumption in favour of sustainable development	All	No indicators proposed as policy sets applications.	s out approach to take towards pla	nning applications and is un	likely to be used to determine planning
