MAKE A ROBOT

Mansfield District Council

If you have visited Mansfield Museum, you will probably have met our robot called Ed. He is made using recycled materials and loves to help people learn more about recycling.

Create your own robot using recycled materials from around your home. Remember to give them a name, and think about what it might be able to do/how it will move.

(Don't forget to ask a grown up to help you if you are using scissors.)

Here are a few ideas to get you started.
