

FH Reference: 125592	Project : Berryhill Landslip Remedial Works	Date of Site Visit: 18/06/2020
<p>Mansfield District Council (MDC) have appointed Fairhurst to undertake regular site inspections of the quarry wall between completion of the emergency response works (w/e 24th November 2019) and the commencement of the permanent works in this portion of the quarry in early 2020.</p> <p>During a recent inspection on Thursday 18th of June 2020, the weather was overcast with rain. Yellow weather warnings for thunder storms were issued for the area on the preceding Tuesday 16th and Wednesday 17th June 2020.</p> <p>A photographic record of the quarry has been collated and is being updated on inspection and no obvious visible changes have been noted from the previous site visit. Increased vegetation is apparent on the face of the quarry wall as well as at the toe/crest owing to seasonal changes. This is relatively heavy in some areas and may result in increased small ravelling/block failures that have been seen historically. No further significant debris was noted in the rock trap at the toe of the slope. Fairhurst are not aware of any reported issues to MDC and the garden hedges fencing remained in situ as agreed.</p> <p>No increase in risk has been determined from the recent inspection.</p> <p>If residents see or hear anything associated with the cliff face, please call 01623 463 050 to report this to the Council.</p> <p>Photographs included overleaf.</p>		
Prepared by: Joshua Blacker Engineering Geologist, Fairhurst		Date: 18/06/2020
Distribution: Mansfield District Council – James Biddlestone		
For distribution to affected residents on Stone Bank and Bank End Close.
