1.Introduction

Mansfield District Council (“The Licensing Authority”) is responsible for the regulation of the Hackney Carriage and Private Hire trades within the District of Mansfield.

Mansfield District Council recognises the important role of Hackney Carriages and Private Hire vehicles in enabling people to travel around the District and portraying a positive image of Mansfield.

The Licensing Authority recognises all its drivers/operators as Ambassadors for the District and with this there is an expectation to provide a positive customer experience by transporting customers safely on every journey.

This policy and related procedures detail how the Licensing Authority carries out its functions. The policy has been developed by Mansfield District Council in consultation with other Statutory Agencies, the Public and the Licensing Trade. The following have also been taken into consideration:

- The Council’s licensing objectives;
- Legislation;
- The Office of Fair Trading “The Regulation of Licensed Taxi and PHV Services in the UK” 2003;
- Taxi and PHV Licensing Criminal Conviction’ Policy, LGA;
- Guidance on the Rehabilitation of Offenders Act 1974 – March 2014;
- Disclosure & Barring Service Information Note on Rehabilitation of Offenders Act 1974 and Police Act 1997 Orders – 2013;
- Regulators’ Code 2014;
- The Department for Transport “Taxi and Private Hire Vehicle Licensing: Best Practice Guidance” March 2010.
- Guidance on determining the suitability of applicants and licensees in the Hackney and Private Hire Trade institute of licensing April 2018.

This document sets out the requirements and standards that must be met.

It should be noted however, that nothing in this document will bind the Licensing Authority to a particular course of action, and it will continue to consider each application on its own merits. Similarly, this policy does not take precedence over any statutory provision or established case law.

4. Hackney Carriage and Private Hire Driver Requirements

4.1 Application process

The Licensing Authority issues licences that enable the driving of both Hackney Carriages and Private Hire Vehicles.

Before an application is made, the applicant should arrange, attend and pass a knowledge test.

Before an application will be accepted the applicant must include the following:

- Two recent colour passport standard photographs that are a good likeness of the applicant;
- DVLA driving photo-card;
- Completed DVLA mandate;
- Knowledge Test certificate
- Completed DBS certificate and all identification documents required as part of the DBS check (see 4.5 for more information)
- Certificate of good conduct (if applicable – see 4.5)
- Proof that the applicant is legally permitted to work in the UK –a licence will not be issued for a period longer than that period the applicant is permitted to work.
- Full Group 2 Medical Certificate or proof of exemption (if applicable).
- Safeguarding vulnerable people course certificate.
- Application fee (non-refundable)
- Any other documentation required to progress your application.

If any issues arise during the processing of the application, in the first instance the applicant will be given an opportunity to provide clarification, or if appropriate to amend the application form.

The Licensing Authority will only consider an application when it has received all relevant documentation.

The Licensing Authority will normally issue a Hackney Carriage and Private Hire Vehicle Drivers licence for a three-year period. The Licensing Authority does have the discretion to issue licences for a shorter period, if it considers this to be necessary in the circumstances.

It is the responsibility of the applicant to ensure a renewal application is made prior to the expiry of an existing licence. Failure to do so will result in the driver being treated as a new driver and will be required to submit an application on this basis before a licence will be issued.

4.2 Drivers Responsibility

The Licensing Authority requires all its drivers to ensure that passengers are safeguarded when being transported in a licensed vehicle. Drivers are expected to:

- Ensure that they are fit to drive at all times;
- Ensure their vehicle is fit to be driven at all times;
- Not to use a vehicle which could put the public at risk;
- To remain professional at all times;
- To carry photo ID at all times, and wear it in accordance with any conditions of licence.
- Not to use offensive or inappropriate language;
- Not to swear;
- Not to behave in a manner that would make passengers feel uncomfortable, intimidated and/or threatened;
- Not to misuse personal information obtained during whilst working;
- Ensure a log is maintained which records all incidents, refusals and accidents involving passengers and/or reported to the Operator immediately and in any event before taking the next fare (see paragraph 6.9)
- Report any concerns about the safety, welfare or behaviour of an individual, to the police by telephoning 101 (or in emergencies by calling 999) and to the Licensing Authority.
- Ensure their vehicle is safe to carry members of the public and must refrain from driving it if there are any cosmetic/physical/mechanical concerns. Any concerns must be reported to the Private Hire Operator or the vehicle proprietor/owner as soon as practicably possible by the driver. The vehicle must not be used until the concerns have been rectified.

4.3 Knowledge Test

Applicants will be required to produce photographic evidence before the test can be commenced. The knowledge test must be passed and is designed to ensure applicants have sufficient knowledge in relation to the rules, regulations, and conditions of licence; and to evaluate literacy and numeracy skills.

As part of this process, applicants will be required to demonstrate that they possess English literacy skills of a standard that would be reasonably expected of a person undertaking a role as a hackney carriage or private hire driver.

The initial application fee will only include the initial test and is non-refundable upon failure. All re-tests will be charged in accordance with the fees set by the Council and are non-refundable in the event of failure.

No refund will be provided for any cancellations with less than 24 hours' notice in writing.

4.4 Fit and Proper Person Test

Licensed drivers are in a position of trust and therefore must satisfy the Licensing Authority that they are 'fit and proper' to hold a drivers licence.

All drivers are expected to act with honesty and integrity throughout the application process, and must therefore fully and accurately disclose any information that is requested. This includes information regarding previous convictions, warnings and reprimands, current investigations and pending criminal proceedings.

This requirement to be 'fit and proper' is contained within Sections 51 and 59 of the Local Government (Miscellaneous Provisions) Act 1976 (Part II).

In order to assess the suitability of an applicant the Licensing Authority will undertake any checks and apply whatever processes it considers necessary to determine whether an applicant is 'fit and proper' to hold a licence and ensure that licences are not issued to, or used by, unsuitable people.

In assessing the suitability of an applicant or licence holder, the Licensing Authority will consider the following factors:

- Criminality including cautions
- Period of holding a driver's licence
- Number of endorsed driving licence penalty points
- Right to work
- Medical fitness
- Standard of driving / driving ability
- General conduct / standards of behaviour (including online behaviour)
- The conduct of the applicant in making the application (e.g. whether they have acted with honesty and integrity during the application process).
- The previous licensing history of existing / former licence holders (including honesty and integrity).
- Theoretical knowledge of issues and matters related to the work of a licensed driver.

In addition, the Licensing Authority may need to verify information or obtain further information from other sources such as the Police, other local authorities, statutory & non-statutory agencies and Boards such as the Children and Adult Safeguarding Boards. **Enquires will be made by the DBS service and the use of Police Common Law Disclosure.**

The authority will consider any entries on the NR3 data base.

Once a licence is granted, drivers must remain a 'fit and proper' person for the duration of that licence. The fitness and propriety of a driver will be monitored / assessed, throughout the period that the licence is held, by the Licensing Authority and Partner Agencies.

4.5 Disclosure and Barring Service (DBS)

A criminal record check on a driver is necessary and deemed an important safety measure.

Applicants will be required to provide an Enhanced Disclosure through the Disclosure and Barring Service (DBS). This DBS will provide details of live/spent convictions, police cautions and other relevant information that will be considered when determining the application.

Hackney Carriage and Private Hire vehicle drivers are deemed as "exceptions" under the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (the "Exceptions Order"), therefore all applicants will be required to disclose all cautions, reprimands, warnings, endorsable, fixed penalties, offences and/or convictions on their application forms even if they are spent for other purposes. For criminal offences, details are required in respect of ALL offences no matter how old.

Certificates should be obtained using the Licensing Authority's approved DBS provider. Existing Enhanced DBS Certificates may be accepted provided that they have been issued within the last three months.

All drivers shall notify the Licensing Authority of any convictions, cautions, or fixed penalty notices received during their licence period as soon as is reasonably practicable. Failure to inform the Licensing Authority of these during the licensing period may result in suspension, revocation and/or any other course of action deemed appropriate by the Licensing Authority.

A licence will not be granted or renewed in the absence of a current Enhanced DBS Disclosure Certificate.

The Licensing Authority requires all drivers to fund, obtain and produce an enhanced DBS check annually and the details contained within this will be retained by the Licensing Authority.

The Licensing Authority requires all drivers to fund, obtain and produce an enhanced DBS check annually and the details contained within this will be retained by the Licensing Authority. Licence holders will be invited to subscribe to the Disclosure and Barring Service Online Update; the applicant has 30 days to subscribe once the certificate is received. The Update Service can be used if an application is made for a renewal and there has been no changes. If no changes are recorded on the DBS certificate then a full DBS check will not be required. In all other cases a full Enhanced DBS check will be required before a licence will be renewed/issued.

The applicant/licence holder must provide consent for the Licensing Authority to undertake checks of their DBS status as and when it is deemed appropriate to do so and failure to do this may result in an application being refused.

It may be necessary for the Licensing Authority to access the update service to monitor licence holders to be satisfied that they continue to be fit and proper to hold a licence.

All convictions, warnings and offences etc. will be considered in line with the Convictions and Offences set out in Appendix A.

Applicants with periods of residency outside the UK

If an applicant has spent six continuous months or more overseas since the age of 10, the Licensing Authority will need to see evidence of a criminal record check from the country / countries visited covering the period that the applicant remained overseas.

The Licensing Authority must be satisfied that sufficient background checks have been conducted to satisfy the fit and proper test for all applicants that have lived overseas.

For EU nationals (including UK citizens) an enhanced DBS check (or equivalent) should be obtained.

For countries where this is not available, the applicant must provide a certificate of good conduct authenticated by the relevant embassy from each country (unless previously seen by this Authority). For these purposes, a "Certificate of Good Conduct" means an extract from the judicial record or equivalent document issued by a competent judicial or administrative

authority in the relevant country testifying to good conduct or to any criminal convictions recorded against the individual.

The Licensing Authority may wish to approach the relevant Embassy or appropriate Body directly to verify the documents provided. The applicant will be advised of any costs to be incurred and these costs must be met by the applicant. Consent should not be unreasonably withheld.

Where necessary documents must be translated into English or another language by a translator approved by the Licensing Authority. The cost of obtaining an appropriate translation must be met by the applicant/driver.

DVLA Driving Licence Check

All applicants for and holders of a Hackney Carriage & Private Hire (Dual) Driver licence will be required to have an annual check of their DVLA Driver licence record.

A signed mandate will be required as part of the application process.

Any offences disclosed will be dealt with in accordance with the Council's "Relevant Convictions Policy".

Applications will only be accepted from applicants that have held a full driving licence for at least one year. The driving licence must have been issued in the UK, the European Community (EC) or one of the other countries in the European Economic Area (EEA). Applicants that hold full EC or EEA licences for at least one year will have the length of time that they have held such licences taken into consideration, however holders of these licences will only be issued with a licence for 12 months – the licence will not be renewed unless the EC or EEA licence is exchanged for a full UK licence (as required by national legislation).

4.6 Right to work in the UK

The Licensing Authority requires all applicants to provide documentary evidence to confirm that they can legally work in the UK. For example:

- UK passport confirming that the holder is British Citizen (or citizen of another EEA country – including Switzerland),
- Passport or other travel document endorsed to show that the holder is allowed to stay in the United Kingdom and undertake paid employment,
- Full UK Birth / Adoption Certificate,
- An Immigration Document issued by the Border and Immigration Agency to the holder which indicates that the person named in it can stay in the United Kingdom and undertake paid employment,
- A work permit or other approval to take employment issued by the Home Office or the Border and Immigration Agency when produced in combination with either a passport or another travel document endorsed to show the holder is allowed to stay in the United Kingdom and is allowed to undertake paid employment.

This list is not exhaustive, and other documents may be accepted – further advice can be obtained from the Licensing Department upon request.

Where an applicant is subject to immigration controls, a licence will not be issued for longer than the period that the applicant has permission to undertake paid employment in the United Kingdom.

4.7 Medical Assessment

The Licensing Authority requires applicants and current licensees to undergo medicals through a provider approved by the Licensing Authority. The applicant will be responsible for arranging, attending and funding the medical appointment, as well as providing a copy of the medical certificate to the Licensing Authority.

Licensed drivers are expected to meet the DVLA Group 2 Standards of medical fitness.

A medical will be required on first application and then every five years from the age of 45. On reaching the age of 65 a medical will be required annually.

The Licensing Authority may contact the medical provider for further information regarding the fitness of an applicant. The application will be determined on the medical evidence available.

Licence holders must advise the Licensing Authority of any deterioration or other change in their health that may affect their driving capabilities as soon as is practicably possible. Failure to do so could result in suspension, revocation and/or another course of action deemed appropriate by the Licensing Authority.

Exception:

Where an applicant is able to produce proof of a current Group 2 medical examination i.e. less than 3 months old, along with confirmation from a medical practitioner that there have been no changes since its issue, they shall not be required to undergo a further medical examination at the time of submitting their application.

If the applicant is not required to undertake a full Group 2 medical on renewal they will be required to complete and submit a self-medical certificate with their renewal application. The Licensing Authority reserves the right to request a further Group 2 medical where it is deemed appropriate. The applicant will be required to finance this.

The Licensing Authority also reserves the right to request a driver/applicant to produce a medical certificate upon request at any point during the period of the licence. The driver may be required to cover the cost of this. Failure to comply with such a request may result in immediate suspension, revocation and/or another course of action deemed appropriate by the Licensing Authority.

4.8 Assistance Dogs

Licensed drivers are under a legal duty to carry guide, hearing and other prescribed assistance dogs in their vehicles without an additional charge. Drivers who have a medical condition

which is aggravated by exposure to dogs may apply to the Council for exemption from the duty on medical grounds. The Driver must provide medical evidence to prove the need for an exemption certificate. If an application is successful they will be issued with an exemption certificate, and also be issued with a notice of exemption. The notice of exemption must be clearly displayed in the vehicle by fixing it, facing outwards, either on the windscreen or in a prominent position on the dashboard.

4.9 Safeguarding training

Every new applicant will undergo Safeguarding Vulnerable Passengers training within 12 months of the initial licence being granted. The training involves attending a training session at a location approved by the Council and the applicant will also complete and pass the test at the end of the session or via a third party agreed by the Council the fee will be paid directly to the provider.

Current licence holders will also undertake the training within 12 months of the renewal dates of their licence. Failure to pass the test will result in the applicant or current licence holder re-taking the training session and exam at their own cost. Should the applicant or current licence holder fail the test for a third time, in the case of a new applicant the application may be refused, in the case of a current driver the application to renew may be refused or, if mid-term, a licence may be revoked.

4.10 Drivers will be required to attend safeguarding refresher training every 3 years.

4.10 Vulnerable Passengers

Drivers must confirm that appropriate provisions are in place for any vulnerable passengers prior to accepting any bookings and/or commencing a journey. Drivers are responsible for ensuring the passenger is able to be transported safely and comfortably.

If a responsible person is not accompanying a vulnerable passenger the driver should make reasonable attempts to obtain contact details for a responsible person in case of an emergency.

If a driver is unable to commence a journey due to safety concerns then all reasonable measures should be taken to ensure a responsible person is notified to enable alternative arrangements to be made.

4.11 Dress Code

Hackney Carriage and Private Hire Licensing in the District of Mansfield plays an important role in portraying a positive image of Mansfield. All Licensees are expected to conduct themselves in a manner that serves to enhance the professional image of the trade, and promotes the concept that drivers of licensed vehicles are professional drivers.

The Licensing Authority requires all drivers to adhere to the following dress code:

Drivers must ensure that at all times a smart standard of dress and cleanliness is maintained. The seasonal wearing of dress shorts or culottes as appropriate will be allowed and drivers must wear either a short sleeved shirt, blouse or collared polo shirt.

Employees working for companies operating their own dress codes will also be required to comply with this standard.

4.12 Driver Hours

Although there are no direct controls over the hours that Hackney Carriage and Private Hire drivers can work, the Licensing Authority deem that the number of hours worked by drivers can impact public safety and as a result seeks to promote the same limits that are applicable to drivers and crews of heavy goods vehicles or public service vehicles, namely:

- An average of 48 hours per week calculated over a 17 week period normally;
- In any single week up to 60 hours providing the 48 hour limit is maintained;
- Night work is limited to 10 hours per night unless there is an agreement to work longer hours;
- Working between 6 and 9 hours per day requires breaks totalling 30 minutes. If more than 9 hours is worked then breaks must total 45 minutes. Breaks must be of at least 15 minutes in duration.

The Licensing Authority recommends that these requirements are used as a guideline to ensure drivers are fit to drive and that public safety remains paramount at all times.

4.13 Conditions

All drivers must comply with the standard licence conditions specified in Appendix B. Failure to comply with these conditions may result in enforcement action.

5. Hackney Carriage and Private Hire Vehicle Requirements

5.1 Application process - Initial application

A vehicle will only be licensed if it complies with the requirements of the Vehicle Specification (Compliance Test) in Appendix C, and the Supplementary Test in Appendix D.

Before an application is made, the applicant must arrange for a Compliance Test to be undertaken at the Council's vehicle testing station at the Hermitage Lane Depot. If the vehicle passes the Compliance Test, then the applicant can continue to submit an application.

Before an application will be accepted the applicant must include the following:

- A compliance certificate (new and replacement vehicles only)
- Completed vehicle application form
- The appropriate fee
- Vehicle registration document (V5) or a proof of purchase (pending the V5)
- Insurance certificate or insurance cover note for the vehicle
- Current MOT certificate
- HPI Certificate for new and replacement vehicles (as vehicles subject to a category A, B, C and D write off will not be considered for a licence)
- Any vehicle not manufactured with European Whole Vehicle Type Approval will be required to undergo Single Vehicle Approval (SVA) testing. Evidence of that testing and the vehicle having obtained SVA must be produced to the licensing office on application before the vehicle can be licensed.
- The Supplementary test must be satisfactorily completed before a licence can be issued.

Attention should be given to the Vehicle Specification and Supplementary Testing Manual BEFORE purchasing a vehicle.

It is the proprietor's responsibility to ensure that appropriate insurance and MOT are in place for the duration of the licence. If the insurance or MOT lapses this may result in suspension or revocation of the licence.

5.2 Compliance Test

The Compliance Test ensures that a vehicle fully meets the standards required in accordance with the Vehicle Specification (Appendix C). Any vehicle to be licensed must first pass a compliance test before an application can be made.

For the Compliance Test please bring the registration document, or if this is not possible, a manufacturers vehicle specification booklet with you. If the seating configuration is to be

changed when the vehicle is carrying a wheelchair, you must also provide copies of the seating plan for the vehicle layout, with and without the wheelchair, and both layouts need to be approved.

For any proposed structural alterations to a vehicle currently licensed advice should be sought from Hermitage Lane Testing Station. The vehicle will be required to pass a Compliance Test following the alterations.

The licence status of a vehicle currently licensed under a previous specification will not be affected unless otherwise stated.

5.3 Supplementary Test

This inspection will include an assessment of the vehicle's mechanical and aesthetic condition, and will exceed the MOT standards set by the Driver and Vehicle Standards Agency. The inspection is intended to assess the vehicle for licensing suitability. The council will not issue an MOT certificate for the vehicle that will be the responsibility of the applicant to obtain at his own cost.

The person presenting the vehicle for inspection must submit to the vehicle inspector all necessary documents before the start of the vehicle examination.

The vehicle inspection checklist sheet will indicate to the proprietor of the vehicle

- if the vehicle "passed" or "failed" the inspection,
- what point(s) the vehicle failed on (where a failure is given)

If the licence plate is not at the testing station the pass certificate must be produced as evidence that the vehicle met the required standard for the applicant to collect the licence and plates from the Council Offices (subject to the all the other elements of the application process being in place).

5.4 Application process - Renewals

For a renewal application the application form, relevant paperwork (as listed above) and fee must be submitted to the Licensing Authority before the date of expiry.

A Compliance Test is not required as part of the renewal process.

A Supplementary Test must be passed every 12 months. For vehicles over five years of age, a Supplementary Test must be passed every 6 months. The test must be completed no more than 4 weeks before the date of expiry of the current licence.

It is the applicant's responsibility to ensure that the vehicle is tested prior to the submission of the application.

Any vehicle licence suspended by an Authorised Officer, will also require a Supplementary Test to be carried out in order that the lifting of the Suspension Notice may be considered.

The Supplementary Test must be undertaken by the vehicle examiners at the Hermitage Lane Testing Station and these tests must be pre-booked.

If either the application form and corresponding paperwork or the vehicle test (in which the vehicle passes) is not completed prior to the expiry date, the vehicle licence will not be renewed.

5.5 Insurance

All insurance documents must be produced before a licence can be issued by the Licensing Authority, namely:

- A valid certificate of insurance or cover note confirming that insurance is in place for each driver of the vehicle and specifying use as either a Hackney Carriage or Private Hire Vehicle.

The Licensing Authority will undertake periodic audits of licensed vehicles to ensure that the vehicle is insured.

For a Hackney Carriage Vehicle the certificate of insurance must cover 'public hire'
For a Private Hire Vehicle the certificate of insurance must cover for 'private hire/hire or reward'.

5.6 Accidents

If at any time the vehicle is involved in an accident/incident, however minor, the driver must inform the Licensing Authority as soon as possible and in any event within 72 hours in writing or by email environmentallicensing@mansfield.gov.uk

Minor visual blemishes may not preclude the vehicle from remaining in service. Vehicle proprietors are advised to contact the Licensing Team, who may request an inspection by the Licensing Authority, before continuing to use the vehicle to carry fare paying passengers.

The vehicle must be presented for inspection to the Council as soon as possible after the accident has taken place – an appointment will be arranged upon notification to the Licensing Authority. Failure to present the vehicle for the appointment could result in the vehicle's licence being suspended and/or revoked.

The Licensing Authority may, at any time, request that a vehicle be tested. The vehicle should not be used for hire or reward until the Licensing Authority has confirmed it is satisfied that the vehicle is fit for use. The Licence may be suspended in the interim. If, following an inspection, it is deemed that the vehicle is not fit for use and/or roadworthy then the vehicle licence may be suspended.

If the vehicle is significantly damaged/not roadworthy, or is being assessed by an insurance company, then the vehicle proprietor must inform the Licensing Authority as soon as possible and in any event within 72 hours. In these cases the proprietor should provide photographic or other evidence to justify why the vehicle is unable to be presented for examination. Failure to do so may result in the licence being suspended and/or revoked.

Any vehicle involved in an accident may be subject to an HPI check on request by the Licensing Authority at the proprietor's expense.

5.7 Meters

All Hackney Carriages must be fitted with a meter.

Meters used to calculate fares must be accurate, display the correct time and be Capable of displaying:

- In the case of Hackney Carriages, the various tariffs as approved by the Council (including extra charges recoverable under the approved Table of Fares). The meter shall be calibrated and set to the Council's agreed charging distances and tariffs currently in force.
- In the case of Private Hire Vehicles, any scale of charges provided by the operator of the vehicle.

Meters will be checked for accuracy by a measured mile distance or by waiting time.

Meters must be positioned in order that the fare must be clearly displayed to the passenger throughout the journey.

Meters in use must not facilitate fraudulent use. Any signs of tampering including the breaking of any seals may result in suspension and/or revocation.

5.8 Advertisements on vehicles

No advertisements shall be placed on any vehicle licensed without the applicant receiving prior written approval from the Licensing Authority.

An application must be made in writing to the Licensing Authority with a copy of the advertisement. Please refer to the Standard Conditions in Appendix E.

5.9 Wheelchair accessibility

All members of the public should have reasonable access to Hackney Carriage and Private Hire services. There are requirements for all wheelchair accessible Hackney Carriages. Please refer to the Vehicle Specification in Appendix C.

5.10 Taxi Ranks

A full list of the locations of the Hackney Carriage ranks and the times they are in use are available in Appendix F.

Only Hackney Carriages licensed by Mansfield District Council can utilise the taxi ranks in the District. Taxi ranks should only be used when Hackney Carriages are waiting for their next hire. Hackney Carriages should not use taxi ranks as parking places. Hackney Carriage Proprietors must take steps to actively encourage drivers on arriving at a rank/stand to:

- Where the rank is not already fully occupied by other Hackney Carriages the

Driver must:

- Park the vehicle immediately behind the last vehicle on the stand and face in The same direction; and
- Occupy the space previously occupied when the vehicle(s) immediately in Front move on;
- Drivers are required to turn off their engines whilst stationary on the rank in Order to reduce any potential pollution.
- Where the rank is fully occupied by other Hackney Carriages, the driver must Proceed to an alternative rank.

Private Hire Vehicles are not permitted on or in close proximity to taxi ranks. Private Hire Vehicles must not allow customers to alight from their vehicle at a taxi rank.

5.11 Conditions

All Vehicles must comply with the standard licence conditions specified in Appendix E. Failure to comply with these conditions may result in enforcement action.

6.Bookings and Fares

6.1 Bookings

Bookings can be made and accepted in the following ways:-

HACKNEY CARRIAGES:-

- When situated on an appointed rank (when on a rank, it is an offence to refuse a fare without reasonable excuse).
- When proceeding at a reasonable speed to one of the appointed ranks. Being hailed by a prospective hirer.
- When pre-booked

PRIVATE HIRE VEHICLES:-

- Only when pre-booked (By such methods as personal call, telephone call , mobile phone APPs or some other direct method of communication with the licensed operator's base), and entered in the operator's records before the commencement of the journey.

6.2 Illegal plying for hire

The Council will consider taking enforcement action in respect of illegal plying for hire in the following circumstances: -

HACKNEY CARRIAGES

- When a Hackney Carriage is parked other than on an appointed rank.
- The driver either in person or through agents, calling out or otherwise inviting any person to hire such carriage. Such action may amount to touting or importuning a fare which is an offence.

PRIVATE HIRE VEHICLES

- Inviting potential customers to hire the vehicle for an immediate booking.
- Accepting an offer for an immediate booking from a potential customer.

The above is not intended to be an exhaustive description of illegal plying for hire and the Council reserves the right to take enforcement action in other circumstances where it deems fit.

Any vehicle which has been pre-booked should attend promptly at the time and place and should not wait more than a reasonable time after the appointed time before moving off. Private hire vehicles must not rank up on a street or road with the drivers in attendance.

6.3 Fares

Private Hire Operators and / or Hackney Carriage Drivers may agree the cost for the journey with the customer prior to the journey commencing. In this situation, the price quoted must be

the price charged - there is to be no deviation from this price without the agreement of the customer. However if the meter shows a lower fare the lower fare must be charged.

On occasions where a price has been not been agreed prior to the journey commencing, the fare charged must be that which is reflected on the meter where the vehicle is equipped with a meter.

Hackney Carriages

The Hackney Carriage Table of Fares ("the tariff") is set by the Council and states the maximum fare that can be charged by Hackney Carriage drivers for journeys within the District.

Lesser fares can be negotiated by the hirer for journeys.

The hirer may agree to the fare for a journey which ends outside the district being charged other than at the metered rate.

It is an offence for any person to charge more than the metered fare and regulatory points may be issued to the Proprietor or Driver of the Hackney Carriage in such circumstances in line with the Council's Regulatory Points Scheme (Appendix H). Repeat occurrences may result in revocation of the licence.

The Council may review the Hackney Carriage fare table from time to time. A notice of any variation to the maximum fare shall be advertised by the Council.

A table of authorised maximum fares will be provided to each Hackney Carriage licence holder, which must then be clearly displayed in each vehicle so that it is visible to all hirers.

Drivers must, if requested by the passenger, provide written receipts for fares paid.

Private Hire Vehicles

The Council does not set fares for Private Hire vehicles.

Best practice is to agree the fare prior to the commencement of the journey with the Private Hire Operator.

Drivers must, if requested by the passenger, provide written receipts for all fares paid.

7. Private Hire Operator Requirements

7.1 Application process

Before an application will be accepted the applicant must include the following:

- Completed application form;
- Details of two referees;
- Application fee (non-refundable)
- Public Liability Insurance
- Employers Liability Insurance (where applicable)
- Proof that the applicant is legally permitted to work in the UK –a licence will not be issued for a period longer than that period the applicant is permitted to work
- Certificate of good conduct (if applicable see 4.5)
- Safeguarding vulnerable passengers course certificate;
- Basic DBS certificate for each applicant.

Applications for an Operator licence must be made in writing using the approved application form. Every question on the application form must be completed fully and accurately, and the form must be signed by every applicant.

- Where the application is being made by a single individual, the questions on the application form should be answered by that individual.
- Where the application is being made by multiple individuals (whether in a formal partnership or not), the questions should be answered jointly by the applicants.
- Where a limited company is applying for a licence, the questions should be answered in respect of both the company and its directors.

This is particularly relevant to the questions relating to conviction, cautions, insolvency or disqualification, where the Licensing Authority must be satisfied as to the fitness and propriety of every applicant.

In accordance with the Interpretation Act, the term 'person' may apply to both individuals and bodies corporate and un-incorporate. Where an application is made by one or more individuals, the provisions herein shall be applied to each individual so specified in the application. Where an application is made by a partnership or limited company, the provisions herein shall be applied to each partner or director, as the case may be, and to the company secretary.

If the application is in the name of a limited company a check of that company will be carried out through the Companies House.

If any issues arise during the processing of the application, in the first instance the applicant will be given an opportunity to provide clarification, or if appropriate to amend the application form.

When all required documents and other information (including the reference checks) have been received, the application will be determined.

The Licensing Authority will normally issue a Operators licence for a five-year period. The Licensing Authority has the discretion to issue licences for a shorter period, if it considers this to be necessary in the circumstances.

7.2 Operators Responsibility

Vehicles and drivers may only lawfully carry out bookings made through an operator who is licensed by the same authority. When an Operator is unable to fulfil a booking due to unforeseen circumstances, it may pass that booking to another Operator to fulfil the commitment providing it is done so in accordance with the law.

The term 'operate' is defined at section 80 of the 1976 Act as meaning, in the course of a business, to make provision for the invitation or acceptance of bookings for private hire vehicles.

Operators play a key role in ensuring that the public are kept safe, that drivers are suitably trained, experienced, supported to deliver a high quality service, ensure that vehicles are kept in a clean, safe and sound condition at all times.

Whilst it is accepted that operators will have less direct contact with the public than drivers (with the exception of receiving bookings for journeys), to ensure the safety of the public the Licensing Authority must apply similar checks when considering applications for licences. The Licensing Authority must be satisfied that prospective operators are fit and proper persons.

A licensed private hire vehicle must only be despatched to a customer by a Private Hire Operator who holds an operator's licence. Such a licence permits the operator to make provision for the invitation or acceptance of bookings for a licensed hire vehicle in line with the law.

The Operator shall at all reasonable times provide a prompt, efficient and reliable service to members of the public and shall in particular ensure that:

- It shall be the duty of the licensed Operator to ensure that the licences of all vehicles and drivers are valid and current.
- When a vehicle has been hired to attend at an appointed time and place the vehicle shall unless delayed or prevented by sufficient cause attend punctually;
- Premises provided by the Operator will be within the District or approved by the Licensing Authority and any waiting areas shall be kept clean, heated, ventilated, well-lit with adequate seating;
- Any telephone facilities and dispatch equipment are maintained in an effective working order
- Any complaints received by the Operator that could undermine public safety shall be referred in writing to the Licensing Authority, together with any action taken.

- All vehicles operated shall be maintained in a satisfactory and road worthy condition; and they shall ensure that any defects to vehicles are recorded and corrected as soon as possible.
- The Operator shall ensure, without prejudice to any other liabilities imposed under the Act, that all vehicles and drivers owned, controlled or operated in association with the Operator shall observe and perform the conditions of their licence.
- The Operator will monitor drivers working hours to ensure they are safe to transport the public. Although there is no legal framework for taxi drivers hours, it is incumbent upon the Operator to ensure drivers do not work excessive hours and that they are fit to drive and thus will not put the public at risk.

7.3 Fit and Proper Person Test

The Licensing Authority must be satisfied that an operator is a 'fit and proper person' to hold an Operator's licence in accordance with section 55 of the Local Government (Miscellaneous Provisions) Act 1976.

In order to assess the suitability of an applicant the Licensing Authority will undertake any checks and apply whatever processes it considers necessary to determine whether an applicant is 'fit and proper' to hold a licence and ensure that licences are not issued to, or used by, unsuitable people.

In assessing the suitability of an applicant, the Licensing Authority will consider the following factors:

- Criminality
- Right to work
- General conduct / standards of behaviour (including online behaviour)
- The conduct of the applicant in making the application (e.g. whether they have acted with honesty and integrity during the application process).
- The previous licensing history of existing / former licence holders (including Honesty and integrity).
- Any other relevant information

In addition, the Licensing Authority may need to verify information or obtain further information from other sources such as the Police, other local authorities, statutory & non-statutory agencies and Boards such as the Children and Adult Safeguarding Boards.

The operator is responsible for all persons (and vehicles) that are employed, contracted or otherwise used in the course of their business. All Operators are required to undertake and maintain evidence of checks that satisfy them that their drivers and/or vehicles are suitable, fit and proper to be used in the course of their business. Failure to ensure that appropriate checks are in place may result in suspension or revocation of the operator's licence.

Booking and Disptach Staff

Private hire vehicle drivers are not the only direct contact that private hire customers have with the private hire vehicle operators staff. A vehicle dispatcher decides which driver to send a customer. This is a position that could be exploited by those wishing

to exploit children and vulnerable adults. It is therefore appropriate that all staff that have contact either in person or by other means such as telephone with customers, should not present undue risk to the public or the safeguarding children and vulnerable adults.

The Council needs to be satisfied that private hire vehicle operators can demonstrate that all staff that have contact with the public. The Council, as a condition of granting an operator's licence, require a register of all staff that will take bookings or dispatch vehicles is kept and maintained.

Operators should be required to evidence that they have seen a basic DBS certificate on all individuals listed on their register. The register should include all booking and dispatch staff. The register should be compatible with the operator's policy on employing ex-offenders. The operator should ensure that DBS certificates that are checked are recently issued. Alternatively the operator could use a responsible organisation to request the check on their behalf.

This should be required are part of the employment of all booking and dispatch staff. In addition staff should inform the operator of any convictions they receive whilst in the role.

The register should be a living document that maintains records for all those in these roles for the same duration that booking records are required to be kept, this will enable cross referencing of records. The register should include the date the operator had sight of the basic DBS check certificate.

The register must be available for inspection by a Police Officer and authorised Council Officer.

Where Operators source the booking and dispatch function and cannot pass on the obligation to protect children and vulnerable adults. Operators should be required to evidence that comparable protections are applied by the company to which they outsource these functions.

Examples of other operator checks include:

- Ensuring vehicles are roadworthy;
- Monitoring the conduct of drivers;
- Good record keeping
 - Driver hours
 - Vehicle maintenance
 - Vehicle checks
 - Training records
- Appropriate complaints handling

- Records of any public safety issues/concerns involving drivers and/or vehicles and the reporting of such concerns to the Licensing Authority;

Policy for employment of ex-offenders

The Council also require operators or applicants for a licence to provide their policy on employing ex-offenders in roles that would be on the register for booking and dispatch staff.

7.4 Disclosure and Barring Service

Applicants will be required to provide a Basic Disclosure through the Disclosure and Barring Service (DBS). This DBS will provide details of unspent convictions and police cautions.

Whilst Operators come into contact with the public less frequently than drivers, they still play a critical role in ensuring the safety of the public. In assessing an applicant's fitness and propriety, the Licensing Authority will take into account any convictions or cautions when determining an application.

A serious view will be taken where there are offences relating to dishonesty, financial impropriety, violence, substance misuse, abuse of a person with a protected characteristic, safeguarding offences or misconduct under taxi and private hire legislation. The convictions policy applicable to drivers will be used as a guideline when considering offences for Operators.

It shall be the duty of the Operator to inform the Licensing Authority of the following:

- (a) Any convictions incurred by them or any partner, director or company secretary during the period of the licence for any offence. They must be reported to the Council in writing within 7 days
- (b) Change of address, in writing within 7 days
- (c) Any other changes that could affect the licence

In cases where the Operators consists of more than one individual, a certificate must be obtained and supplied in respect of each individual applicant, or each director/company secretary of a limited company applicant. Certificates must be issued in the full name of the relevant individual, and must have been issued no earlier than 3 months before the date on which the application was made.

Exemption

Any applicant who holds a current private hire or hackney carriage driver's licence issued by the Licensing Authority will not be required to provide a Basic Disclosure certificate as long as their Enhanced DBS certificate has been issued within the last 3 months. The operator's

licence application will not be determined until any such disclosure certificates (including enhanced certificates as part of a simultaneous driver's licence application) have been received.

7.5 Right to work in the UK

Please refer to section 4.6.

7.6 Safeguarding Training

Applicants are required to attend and pass a Safeguarding Vulnerable Passengers training course prior to a licence being granted.

The training will involve attending a session at a location approved by the Licensing Authority. At the end of the session all applicants will be required to pass a test.

The initial test fee is included in the application fee and is non-refundable upon failure. All re-tests will be charged in accordance with the fees set by the Council and are non-refundable upon failure.

7.7 Transfer of Operators Licences

Operator's licences are non-transferrable. In the event of the control of a licensed business passing to a different person, the new owner of the business must apply for a new licence.

7.8 Conditions

All Operators must comply with the standard licence conditions specified in Appendix G. Failure to comply with these conditions may result in enforcement action. Failure to comply with the conditions set out in this document may result in enforcement action.

7.9 Planning

Any premises maintained by the operator (e.g. vehicle depots, booking offices, call centres, etc.) may require planning permission for that usage, irrespective of how many vehicles are to be operated from that location. It is advised that applicants seek advice from the planning authority prior to making an application for a licence or commencing the use of premises under a licence, as to whether any permission will be required.

Planning officers can be contacted during normal working hours on 01623 463259, or by email to Planning&BuildingControl@Mansfield.gov.uk. Applicants must note that both planning and licensing requirements must be satisfied prior to the commencement of any operation.

7.10 Insurance

Operators are required to have the relevant insurance policies in place:

- Vehicle;

- Public Liability;
- Employers Liability (where applicable)

7.11 Trading names

Operators will be asked to declare their (proposed) trading name(s) within their application. This is the name by which the business will typically be known by customers and the public, and which will appear on advertising placed by the Operator.

While trading names are a matter for an Operator to determine, the Licensing Authority will, as part of its licensing process, seek to prevent names which may offend or cause confusion from being used in connection with the provision of private hire services in the area.

In particular, applications will not be granted where the proposed trading name is the same or substantially similar, either phonetically or visually, as:

- An expletive, derogatory or offensive term
- A term associated with inequality
- A term with political implications
- A registered trademark (unless the applicant can demonstrate a right to use that mark)
- The trading name of an existing Private Hire Operator, either licensed in the Mansfield area, or trading in a neighbouring area
- The trading name used by a Mansfield hackney carriage proprietor, where the proprietor has previously notified the Council of the use of that name and the name has been used regularly since
- A name which implies official recognition or endorsement by the Council or another regulatory body
- A term in any language other than English which when translated would fall within any of the preceding categories.

Legally, only hackney carriages may display the words 'taxi' or 'cab' on their vehicles. For this reason, trading names which include the words 'taxi', 'cab', 'hackney' or 'public hire', or which are phonetically or visually similar, will not be permitted by private hire operators.

If, however, the operator also provides bookings to hackney carriages, a variation of the permitted trading name including one of these terms may be displayed on advertising specifically in respect of those vehicles, but not in respect of any matter relating to the wider business or to private hire vehicles.

Should concerns arise about the suitability of a trading name; in the first instance these concerns will be discussed with the applicant, who will be given an opportunity to respond or to amend his application.

Where an operator licence is revoked by the Licensing Authority, the name (or a similar name) of the Private Hire company associated with that licence cannot be used by another operator until such time as six months has elapsed since the date of revocation or the date on which all appeal processes have been concluded (whichever is the longer).

This section of the policy will not be retrospectively applied to any operator's trading name which has been continuously in use since before the 1st August 2016 (and where an operator's licence has been continually maintained in respect of this), but will apply to any new operator (including new applications made following the lapse of a previous licence) or new trading name applied by an existing operator.

7.12 Door signs and advertising

Vehicles which are operated by an operator must display that operator's door signs in prescribed positions, at all times. The door signs must be of a design and colour scheme approved by the Council.

A sample or proof of the proposed door sign should accompany an initial application for an operator's licence, or if this is not possible, should be supplied to the Licensing Authority as soon as practicable following the confirmation of grant of the licence.

A door sign that has not been approved cannot be used on a vehicle. Proofs may be supplied either on paper or electronically. Approval of a design will not be unreasonably withheld, so long as the signage includes the required wording, is of a suitable size, and relates to the operating company's services only, and not to any other product or service.

7.13 Complaints / Records

Each Operator shall keep a record of complaints made to them, their agents or employees in relation to any aspects of the business. The records shall be maintained for the duration of the Licence and should be available at all times for inspection by a Police or authorised Officer.

7.14 Exemptions

The Licensing Authority may consider requests from certain operators for their business or part of their businesses to be exempted.

Exemptions will only be granted in exceptional circumstances and for specialist businesses, for example, those providing novelty vehicles such as stretch limousines and/or executive chauffeur businesses.

Stretch Limousines can be licensed by the authority but cannot be licensed for more than 8 passengers. If the seating is such that a determination is not clear, the licensing authority will inspect the vehicle and determine the number of seats that are available. Where the number of seats cannot be determined the application may be refused.

In all cases, requests for exemption from one or more of the licence requirements must be made in writing, setting out the exemption sought and the justification as to why this exemption may be considered appropriate, in accordance with the criteria above. The request must be accompanied at the time of submission (not at a later stage) by suitable and sufficient evidence to support the request.

Where exemptions are granted, the Licensing Authority reserves the right to impose additional conditions or requirements, which may stipulate an alternative way of achieving the initial requirement, or a close alternative.

All exemptions granted will be subject to periodic review, and may be withdrawn at any time and without prior notice if the Licensing Authority can no longer be satisfied that the exemption is necessary, or if there is evidence to suggest it is no longer suitable.

The Licensing Authority will not grant exemptions from the signage requirements for hackney carriages.

7.15 Bookings

Where a private hire vehicle is unsuitable and a larger vehicle is needed the booker should be informed that the driver is subject to different checks such and may not have had an enhanced DBS check.

DRAFT

8.Fees

The Licensing Authority reserves the right to review its fees at any time. If varied, a notice of the variation will be published by the Council.

All relevant objections will be considered before a determination is made.

The current fees applicable are available on the Council's website www.mansfield.gov.uk

9. Communication and Information Security

9.1 Personal Information

In the course of their business, operators and/or drivers will be required to process and store various pieces of data, some of which will be personal data.

The processing and storage of this data will fall under the provisions of the General Data Protection Regulations, which require certain measures to ensure the security of that data, and to prevent unauthorised breaches of security or usage of the information for unauthorised purposes (e.g. sending marketing information without consent).

Licensees are required to establish whether they need to register with the Information Commissioner's office as a data controller. For further information on whether registration is required, please refer to the website of the, at www.ico.org.uk.

9.2 Radios

Where a Licensee maintains a radio network for use, the range and/or frequency used by the system may require a business radio licence from Ofcom.

Operators will be asked to confirm whether they have satisfied this requirement on making an application. For further details please visit:

<http://licensing.ofcom.org.uk/radiocommunication-licences/business-radio>

9.3 CCTV

Approval in writing must be obtained from the Licensing Authority before CCTV equipment is installed and used in the vehicle.

Each system must be registered with the Information Commissioner's Office with proof of registration supplied to the Licensing Authority before the system can be used. The system must be operated in accordance with the General Data Protection Regulations.

Any material recorded on the equipment shall be used only as evidence in court proceedings or to aid investigation of a crime or to confirm or rebut complaints made against the driver.

Material captured by the system shall be accessible only to the Police, authorised Council Officers or the CCTV Operator. The system should be of evidential quality, indicate the time and date and be retained for a period of 31 days.

The CCTV Operator must ensure recommended signage and appropriate contact details are displayed in a prominent (though not obstructive) position where they can be easily read by

persons both inside and outside of the vehicle. The CCTV Operator must ensure that the notices are maintained in a clean and legible condition.

10. Compliance and Enforcement

10.1 Enforcement

The primary consideration of the Licensing Authority is to protect and promote the safety of passengers, pedestrians and other road users. The Licensing Authority aims to provide the delivery of efficient, targeted and proportionate regulatory services and as such will monitor its licence holders to ensure compliance.

The Council will investigate and respond to complaints made by the public and referrals from other agencies & bodies. Officers will undertake proactive inspections and compliance testing as either day to day activity or as part of programmed operations. Officers will also carry out other relevant checks to ensure any licence holder is a “fit and proper” person to hold a licence and/or the vehicle is safe and meets with the standards set by the Council.

Any breach of the required standards, policies and conditions may result in suspension, revocation and/or any other action deemed appropriate by the Licensing Authority e.g. warnings, regulatory points, suspension, revocation and/or prosecution.

Joint Authorisation of enforcement officers

Licensing authorities should, where the need arises, jointly authorise officers from other authorities so that compliance and enforcement action can be taken against licensees from outside their area. An agreement between licensing authorities to jointly authorise officers enables the of enforcement powers regardless of which authority within the agreement the officer is employed by and which the licence is issued. This will mitigate the opportunities for drivers to evade regulation. Such an agreement will enable those authorities to take action against vehicles and drivers that are licensed by the other authority when they cross over boundaries.

10.2 Decision Makers

The Council's constitution details who is responsible for making decisions on matters relating to taxi licensing. The Council operates a scheme of delegation where certain powers are delegated to Officers and the Licensing Committee/Sub-Committee.

10.3 Hearings

Decisions regarding taxi matters are made at a meeting or hearing in which the information is presented and considered by a decision maker (delegated officer or Sub-Committee).

Hearings may be held to make decisions on the suitability of an applicant or current licence holder where there has been a breach of the Licensing Authority's Policy or conditions.

A report will be provided ahead of the Hearing to the applicant / licence holder detailing the reasons why the matter requires such a decision to be made.

The applicant or licence holder will be given an opportunity to make representations (unless to do so would delay a decision in circumstances where public safety would be at risk). Representations can consist of the applicant's version of events, mitigation or any other information in support of their case and these can be submitted verbally or in writing prior to the hearing. Licence holders are also invited to attend a hearing to give their representations in person. All representations will be given full consideration prior to a decision being made in respect of the application and/or matter to be considered.

The options available to the Sub-Committee / Delegated Officer include (but are not Limited to):

- The grant / refusal of an application
- Suspension of the licence
- Revocation of the licence
- Warning
- The imposition of additional conditions and / or requirements placed on the applicant / licence holder
- To take no further action

The Licensing Authority will consider information from other sources such as the Police, Children and Adult Safeguarding Boards, other licensing authorities and statutory/non-statutory bodies.

Please note the surrender of a licence prior to a hearing may not be accepted by the Licensing Authority.

10.4 Suspension / Revocation

The Licensing Authority can suspend and/or revoke a licence in accordance with:

- Section 60(1) Local Government (Miscellaneous Provisions) Act 1976 for vehicle Licences;
- Section 61(1) Local Government (Miscellaneous Provisions) Act 1976 for driver Licences;
- Section 62(1) Local Government (Miscellaneous Provisions) Act 1976 for operator Licences.

The Licensing Authority has the power to suspend/revoke the licence with immediate effect if it is necessary in the interests of public safety. The overriding consideration is the safety and protection of passengers and the general public. Matters such as employment status and personal circumstances must not be taken into account when determining whether an applicant is fit and proper to hold a licence.

Notification of any such decision will be provided in writing to those affected.

Where a decision is made to suspend and/or revoke with immediate effect, the licence holder cannot work during any appeals process.

Revocations by another Authority

Where an applicant has had a Hackney Carriage/Private hire driver's licence revoked by another Licensing Authority, this Licensing Authority will not normally grant a licence until at least twelve months has elapsed since the revocation.

10.5 Appeals

If an applicant or licence holder is dissatisfied with a decision of the Licensing Authority, an appeal may be lodged with the local Magistrates Court but this must be made within 21 days being notified of the decision.

10.6 Prosecution

The Licensing Authority reserves the right to prosecute licence holders for relevant offences.

10.7 Regulatory Points Scheme

The Council operates a Regulatory Points Scheme as a method of enforcement. The scheme applies to drivers, operators and vehicles.

The Scheme allows the Licensing Authority to issue points on a licence where the Licensing Officer is satisfied that the licence holder has committed a relevant offence or breach of condition as listed in Appendix A.

Any points issued by the Licensing Officer will be confirmed in writing. Points will remain on the licence holder's file for a period of 12 months. If a licence holder has justifiable reasons why the points should not have been issued, they can request to have the matters reviewed. This request must be made in writing to the Licensing Team Leader within 10 working days of the points being issued.

If a licence holder accrues 12 points within any 12 month period, then the matter will be referred to the Licensing Authority's Sub-Committee to review the licence. This could result in a warning, additional conditions, suspension or revocation of the licence.

10.9 National Register of Taxi Licence Refusals and Revocations

The licensing authority provides information to the National Register of Taxi Licence Refusals and Revocations (NR3), a mechanism for licensing authorities to share details of individuals who have had a hackney carriage or Private Hire Vehicle (PHV) licence revoked, or an application for one refused. Full details are in appendix I.

Appendix A

Convictions and Offences

1. Introduction

- 1.1 This policy provides guidance to the Licensing Authority (and its Committee/ Sub-Committee) on considerations when determining whether an applicant or an existing licence holder is a fit and proper person to hold a Hackney Carriage and/or Private Hire driver or Operator Licence. Any decision made by the Licensing Authority/Committee(s) will be on the balance of probabilities and will not be required to meet the 'beyond all reasonable doubt' standard of proof.
- 1.2 It is the responsibility of the Licensing Authority Mansfield District Council (referred to as the Council hereafter) to issue Hackney Carriage and Private Hire licences under the Local Government (Miscellaneous Provisions) Act 1976 and the Town Police Clauses Act 1847. In exercising this duty the Council will consider the safety of the public as its primary consideration.
- 1.3 The Licensing Authority will ensure that each case is considered on its individual merits. The Policy may be departed from but this should be proportionate and justifiable in the circumstances. If an applicant has been convicted of a criminal offence(s), the Licensing Authority is not permitted to review the merits of the conviction [Nottingham City v Mohammed Farooq (1998)]
- 1.4 In this policy the word "conviction" includes convictions and cautions.
- 1.5 In this policy "date sentence has ended" is taken to be the date at which the whole of the period as sentenced by the court has elapsed (and not necessarily the length of time served by the applicant). For example, if a sentence is five years imprisonment

but the applicant only served 3 years, the date that the sentence ends will be five years from the date of sentencing. If the sentence is amended by a court at a later date then this new sentence becomes relevant for the purposes of this policy. The term "since completion of sentence" is to be construed in a similar way to "date sentence has ended".

- 1.6 In this policy the word "applicant" refers to new applicants and existing licence holders.
- 1.7 Whilst the Licensing Authority may consider that a person with a conviction for a serious offence may not need to be automatically barred from obtaining a licence, the applicant would normally be required to:
 - a. Remain free of conviction for an appropriate period as detailed below; and
 - b. Evidence that they are a fit and proper person to hold a licence (the onus is on the applicant to produce such evidence).
- 1.8 The Licensing Authority may depart from the guidelines provided in this policy where it is proportionate and justifiable in the circumstances. Simply remaining free of conviction may not generally be regarded as adequate evidence that a person is a fit and proper person to hold a licence.

2. Outstanding Charges or Summonses

- 2.1 If the Licensing Authority is notified of an outstanding charge or summons which could pose a risk to public safety the Licensing Authority may suspend, revoke or adjourn the application until proceedings have been concluded or information is provided which satisfies them that the risk no longer exists.
- 2.2 The Rehabilitation of Offenders Act 1974 (Exceptions)(Amendment) Order 2002, permits a Licensing Authority to take into account all convictions recorded against an applicant or the holder of a Private Hire Vehicle or Hackney Carriage driver's licence, whether spent or not. The Licensing Authority will consider all relevant convictions, particularly where there is a history of offending or a pattern/repeat offending. In accordance with this Act, all convictions, cautions, warnings and reprimands must be declared by the Applicant.
- 2.3 Under the provisions of Sections 51, 55 and 59, Local Government (Miscellaneous Provisions) Act 1976, the Licensing Authority is required to be satisfied that an applicant licence is a "fit and proper" person to hold such a licence. If, however, an applicant has any convictions, warnings, cautions or charges awaiting trial, the Licensing Authority will consider:
 - How relevant the offence(s) are to the licence being applied for
 - How serious the offence(s) were
 - When the offence(s) were committed
 - The date of conviction
 - Circumstances of the individual concerned
 - Sentence imposed by the court and the Judges reasons (obiter dicta) for coming to that decision

- The applicant's age at the time of conviction
- Whether they form part of a pattern of offending
- Any other character check considered reasonable (e.g. personal references)
- Any other factors that might be relevant, for example:
 - (a) The previous conduct of an existing or former licence holder,
 - (b) Whether the applicant has intentionally misled the council or lied as part of the application process,
 - (c) Information provided by other agencies / council departments.

- 2.4 Existing Licence Holders of driver's licences are required to notify the Licensing Authority in writing within seven days of receiving a driving licence endorsement, fixed penalty notice or criminal conviction (including cautions). Failure to do so will raise concerns as to the honesty of the licence holder and may be taken into account as part of any subsequent renewal applications or reviews.
- 2.5 The Licensing Authority requires an enhanced disclosure from the Disclosure and Barring Service (DBS) for any applicant for a driver's licence. Applicants applying for the grant or a renewal of a driver's licence will also be required to provide an enhanced DBS at their own expense on application and at any other time as determined by the Licensing Authority. Alternatively, a subscription to the update service is available.
- 2.6 Section 57(3) Local Government (Miscellaneous Provisions) Act 1976 states that if any person knowingly or recklessly makes a false statement or omits any material particular in giving information under this section he shall be guilty of an offence.
A serious view will be taken of any person failing to disclosure information or giving false information and this will be taken into account as part of any application or renewal.
- 2.7 For renewal applications and current licence holders this policy will be applied retrospectively.
- 2.8 The Licensing Authority reserve the right to take any information or offences into account even if not specifically covered by this Policy.

3. Offences

This section deals with offences and will apply to new and renewal applications and existing licenses for Drivers and Operators. Unless there are exceptional circumstances the Policy restrictions below will apply.

3.4 Dishonesty

3.4.1 Licence holders are expected to be trustworthy. In the course of their working duties drivers will deal with cash transactions and valuable property may be left in their vehicles. Drivers may deal with customers who are vulnerable or intoxicated and potentially easily confused. For these reasons, a serious view is taken of any conviction involving dishonesty.

3.5 Alcohol and Drugs

3.5.1 Offences involving alcohol such as drunk and disorderly and drunk and incapable will be assessed on their own merits and may result in an application being refused.

3.5.2 A serious view is taken of any drug related offence. The nature and quantity of the drugs, whether for personal use or supply are issues which should be considered.

- 3.5.3 A licence will not be granted where the applicant has more than one conviction for offences related to the supply of drugs unless **10 years** have passed since the completion of any sentence and/or licence period.
- 3.5.4 A licence will not normally be granted where the applicant has more than one conviction for offences related to the possession of drugs unless **5 years** have passed since the completion of any sentence and/or licence period.

If the applicant was an addict then they would normally be required to show evidence of **5 years** free from drug taking after detoxification treatment.

3.6 Driving offences involving the loss of life

- 3.7.3 Appendix 1 sets out the traffic offences relevant to this section.

3.8 Major Traffic Offences

- 3.8.1 A licence will not be granted if an applicant has a conviction for a major traffic offence (not resulting in disqualification) listed in Appendix 1 unless **2 years** have passed since the completion of any sentence and/or licence period.
- 3.8.2 For offences covered previously in this Policy e.g. serious offences, driving offences involving the loss of life and those relating to alcohol/drugs, the restrictions specified in these sections will take precedence.
- 3.8.3 A licence will not be granted if an applicant has been disqualified from driving as a result any offence listed in Appendix 1 unless at least **5 years** have passed after the restoration of the DVLA licence.

This is known as a "totting-up" disqualification. Where an applicant has a totting-up disqualification an application will not be granted until a period **2 years** has lapsed from the restoration of the DVLA licence.
- 3.9.4 Appendix 2 sets out the traffic offences relevant to this section.

3.10 Hybrid traffic offences

- 3.10.1 Offences of the type listed in Appendix 3 will be treated as **major** traffic offences if the court awarded **4** or more penalty points for the offence and as **minor** traffic offences if the court awarded **3** or less penalty points for the offence.
- 3.10.2 Any applicant who has committed an offence of plying for hire within **6 months** of their application will normally be refused a licence. Any existing licence holder found to have committed this offence will be judged on the circumstances of the case. Where a driver is convicted on more than one occasion the licence may be revoked or not granted. Further consideration will be given if the offence of plying for hire was accompanied by the fact that at the time there was no insurance cover in place for the vehicle in line with 3.12 below. It is the applicant's responsibility to prove that there was valid insurance in place at the time of the offence.

This is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the licensing authority – that is, assessing whether an individual is a fit and proper person to hold a hackney carriage or PHV licence

Therefore:

Where a hackney carriage/ PHV licence is revoked, or an application for one refused, the authority will automatically record this decision on NR3.

All applications for a new licence or licence renewal will automatically be checked on NR3. If a search of NR3 indicates a match with an applicant, the authority will seek further information about the entry on the register from the authority which recorded it. Any information received as a result of an NR3 search will only be used in respect of the specific license application and will not be retained beyond the determination of that application.

The information recorded on NR3 itself will be limited to:

- name
- date of birth
- address and contact details
- national insurance number
- driving licence number
- decision taken

Information will be retained on NR3 for a period of 25 years.

This is a mandatory part of [applying for] [being granted], a hackney carriage / PHV driver licence. The authority has a published policy on the approach it will take to requests by other authorities for further information about entries on NR3, and about the use it will make of any further information provided to it. You can read that policy at [link / set out separately].

Information will be processed in accordance with the Data Protection Act (DPA) and General Data Protection Regulation (GDPR). Any searches, provision or receipt of information of or under NR3 are necessary to the authority's statutory licensing functions of ensuring that all drivers are fit and proper to hold the applicable licence. It is not intended that any NR3 data will be transferred out of the United Kingdom.

If you wish to raise any issue related to the data protection legislation, including by relying on any of the rights afforded to data subjects under the GDPR, you can do so to the authority's Data Protection Officer at [contact details]. This includes submitting a subject access request.

You always have the right to make a complaint to the Information Commissioner's Office (ICO). Advice on how to raise a concern about handling of data can be found on the ICO's website: <https://ico.org.uk/make-a-complaint/>

Whistle Blowing

This policy relates to the reporting of allegations of illegalities or wrong doings in the taxi/private hire trades regulated by Mansfield District Council's Licensing service.

Such reports may be considered as "whistleblowing" and there exists legislation to protect such individuals in certain circumstances. You will be considered a whistleblower if you're a worker and you report certain types of wrongdoing, so as an employed Private Hire driver for example. This will usually be something you've seen at work.

The wrongdoing you disclose must be in the public interest. This means it must affect others, for example the general public.

Private Hire and Hackney Drivers or others in the taxi trade can raise any concerns with Mansfield District Council directly. Any information will be treated confidentially, taken seriously, and appropriately investigated.

A taxi driver or other person employed in the Taxi/Private Hire trade may choose to contact Mansfield Licensing anonymously by submitting evidence, along with any other relevant details, via Licensing@Mansfield.gov.uk. In these cases a reporter may lose their whistleblowing law rights.

As such we would encourage any person aware of wrong doings in the taxi trade occurring in Mansfield to report the matter to Mansfield Licensing service with their full details to enable officers to ask for further information and attain the best evidence possible. Reporters will not have a say in how the concern is dealt with but can be kept updated as far as confidentiality rules allow. In these circumstances where the reporter makes it clear at the outset, that they do not want anyone else to know it was them who raised the concern, then reports will be treated confidentially and we will do all we can to ensure details of the reporter will not be released.

Employed individuals might be able to benefit from the protections in whistleblowing legislation depending on their status and way of working. If an individual is unsure if they are protected, independent advice should be sought, for example from Citizens' Advice. More information is available on the Government's website - <https://www.gov.uk/whistleblowing>.

An employer may also have a whistleblowing policy and in this case any person with a concern to raise should also review their policy in deciding a course of action. Mansfield District Council Licensing do not require Private Hire Operators to have a specific policy on whistleblowing but we do encourage the adoption of such policies. Larger organisations are likely to have a policy covering whistleblowing in relation to their employees.

In all cases if a crime is being or has been committed, drivers and others should report this to the Police either by calling 999/101 or making a report after the event to Nottinghamshire police. <https://www.nottinghamshire.police.uk/do-it-online/report-online>
