245	Old Sports Ground Walsop Vale	Carter Lane		Walsop Vale	Carrs	Greenfield	Grass and Traveller Pitches	2.89	Live	Include	Site meets all stage 1 criteria	Potentially Available	A greenfield site currently designated Community Open Space. The site is unlikely to be available however, confirmation from the landowner is required.	Not Suitable	The eastern boundary abuts the boundary of the Hills and Hides and Sookholme Brook SSSI and a majority of the site is designated LWS (Walsop Vale Sports Ground). The site is not in a sustainable location with only access to the site via a narrow key road and no other key roads or public places within a reasonable walking distance.	Not Assessed		Discounted at stage 2
249	Rushpool Open Space	Sand Lands Way		Forest Town	Holly	Greenfield	Grass and Traveller Pitches	2.05	Live	Include	Site meets all stage 1 criteria	Potentially Available	The greenfield site is designated as Community Open Space. Follow-up is required with the landowner to understand whether the site is available for the proposed use.	Not suitable	The site is an existing Community Open Space and conformation is required as to whether the site is suitable for the proposed use. A majority of the site is dense woodland, with a small area approximately 0.3 hectares to the south of the site would be available for use.	Potentially Achievable	The site is considered to be a low value area, potential costs associated with the site which partly slopes to the north west.	Discounted at stage 2

263	Amenity space, Land at Jubilee Way South	Jubilee Way South		Mansfield	Oak Tree	Greenfield	Grass and Traveller Pitches	1.11	Live	Include	Site meets all stage 1 criteria	Potentially Available	A greenfield site designated as Community Open Space. Follow-up is required as to whether the site is available for the proposed use.	Not Suitable	The site is designated Community Open Space. It is not known whether the site is surplus to requirements. Access would be required via Sandfield Close of Sandalwood Close past existing residential properties and which could impact on the amenity of residential properties. A dense tree belt runs along the southern boundary which reduces the size of the site.	Potentially Achievable	The cost of providing the necessary infrastructure on the site is likely to be low, but it has yet to be determined whether the site is surplus to requirements and how much of the open area is available for the proposed use.	Discounted at stage 2
