“Involvement with arts and culture is crucial to imagination, self-expression and creativity in young people. It also develops the skills that fuel the success of the UK’s creative industries, and that will result in the next generation of creative talent across the country. - Arts Council England

Welcome

Dear Teachers,

There’s nothing we love more than welcoming children to our theatre and museum. Seeing them come to life, and creating those jaw-dropping, lightbulb ‘wow’ moments is what it is all about.

We continue to work hard to put together a flexible programme of workshops which can be delivered live in your school, in the museum/theatre or online.

We offer a full range of creative, physical and educational work. All workshops are designed with Arts Award in mind. Please get in touch if you’d like more information or wish to deliver Artsmark/Arts Award in your school.

All workshops featured in this handy pack are suitable for all children, including those with English as a second language, additional needs or disabilities. We’re thrilled to present these activities to inspire positivity and aid the imagination of your students.

Please let us know if we can do anything at all to make your experience with us as wonderful as possible. We look forward to hearing from you.

Loan Boxes

Our loan boxes bring objects from the past into your classroom, inspiring children's imagination as part of a project. Whether based in a classroom, or as a way of supporting work around a museum visit, they are great at helping children develop enquiry skills and creative learning.

Each offers a variety of objects that help children engage with, and understand, the curriculum topic through authentic replicas, photos and original items.

Take a look at our website for more information about which topics are covered and details of what's in each box.

Home education

We understand that not all education takes place within a school setting and offer hands-on, fun and practical workshops for those children who are home educated. We run regular sessions at the museum linked to a particular theme, for various abilities including those with additional needs or disabilities. Sessions will take place in person at the museum; places are limited so please chat to us for more information and to book early.

"Including cultural education subjects such as art and design, dance, drama and music in the curriculum is hugely important in ensuring we deliver a broad and balanced offer, enriching the lives of our young people."
